

University of Rochester Athletic Fields

Brighton, NY

Client: University of Rochester

Services: Permitting, SWPPP

Overview: Costich Engineering was part of a design-build team for the construction of a new artificial turf baseball field and a natural turf soccer field. Costich's role was to obtain permitting for the fields from various City, County and State agencies. A Stormwater Pollution Prevention Plan (SWPPP) was prepared and reviewed by the New York State Dept. of Environmental Conservation for the purpose of obtaining a permit to discharge into the Genesee River.
